

# Family Safety and User Network Research

## Family Emergency Kit as a Model

Instructor : Ding-Bang Luh  
Jeng-Hong Chen  
Student : Sheng-Hong Li  
Yu-Lin Chen

The concept of first aid is not common in a typical Taiwanese family, therefore redesigning the first aid kit considering the placement, functionality, affinity and form is our goal. "nursing kit" is a new generation of family first aid kit that blends into its surrounding furniture and be a part of your daily life. Its universal design component includes the Curvy Scissors, Tape Dispenser, Tweezers Clip and Medicines Cap. Creating a rapid, complete and easy-to-use security guard achieving maximum functionality. Nevertheless be an awesome art piece at your home. We not only want to take care of your physical, but also the spiritual aspect of health.

### Actor Network Theory

Actor network theory (ANT), also known as enrolment theory or the sociology of translation. Stemming from a Science and Technologies Studies (STS) interest in the elevated status of scientific knowledge and counter to heroic accounts or innovation models, ANT suggests that the work of science is not fundamentally different from other social activities.

Normally we pretend as a invisible observer.

Transforming the frame of the reference.

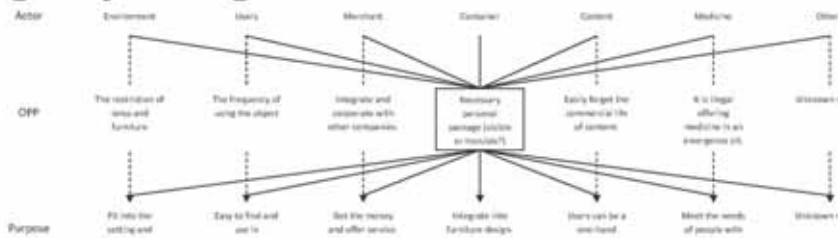

Now, we are in the eye of the object.

The eyes of the Things(Scissors)  
Make a installation(camera) from objects and record from the users action.  
1. fingers + select me = angle  
3. palm + stick on me = surface  
3. hand + use me = elasticity

Things That Think

### Obligatory Passage Point

1. Problematisation
2. Observation
3. Actors
4. Interressement
5. Enrolment
6. Mobilisation
7. OPP

### Interressement

1. Discuss the speciality of certain parts.
2. Actors' Interest, rights and power?

### Enrolment

1. How to select the right actors?
2. What's the relationship between actors?

### Mobilisation

1. Where is a starting point in the web?
2. Think of the web reconstruction and development after "Mobilisation".
