- 摘要: 2019年後各種疾病給世界各地帶來恐慌，本團隊透過建立智慧防疫耳掛欲以即時的生理反饋以及配戴口罩的感測，以達到疾病散佈的風險管制。

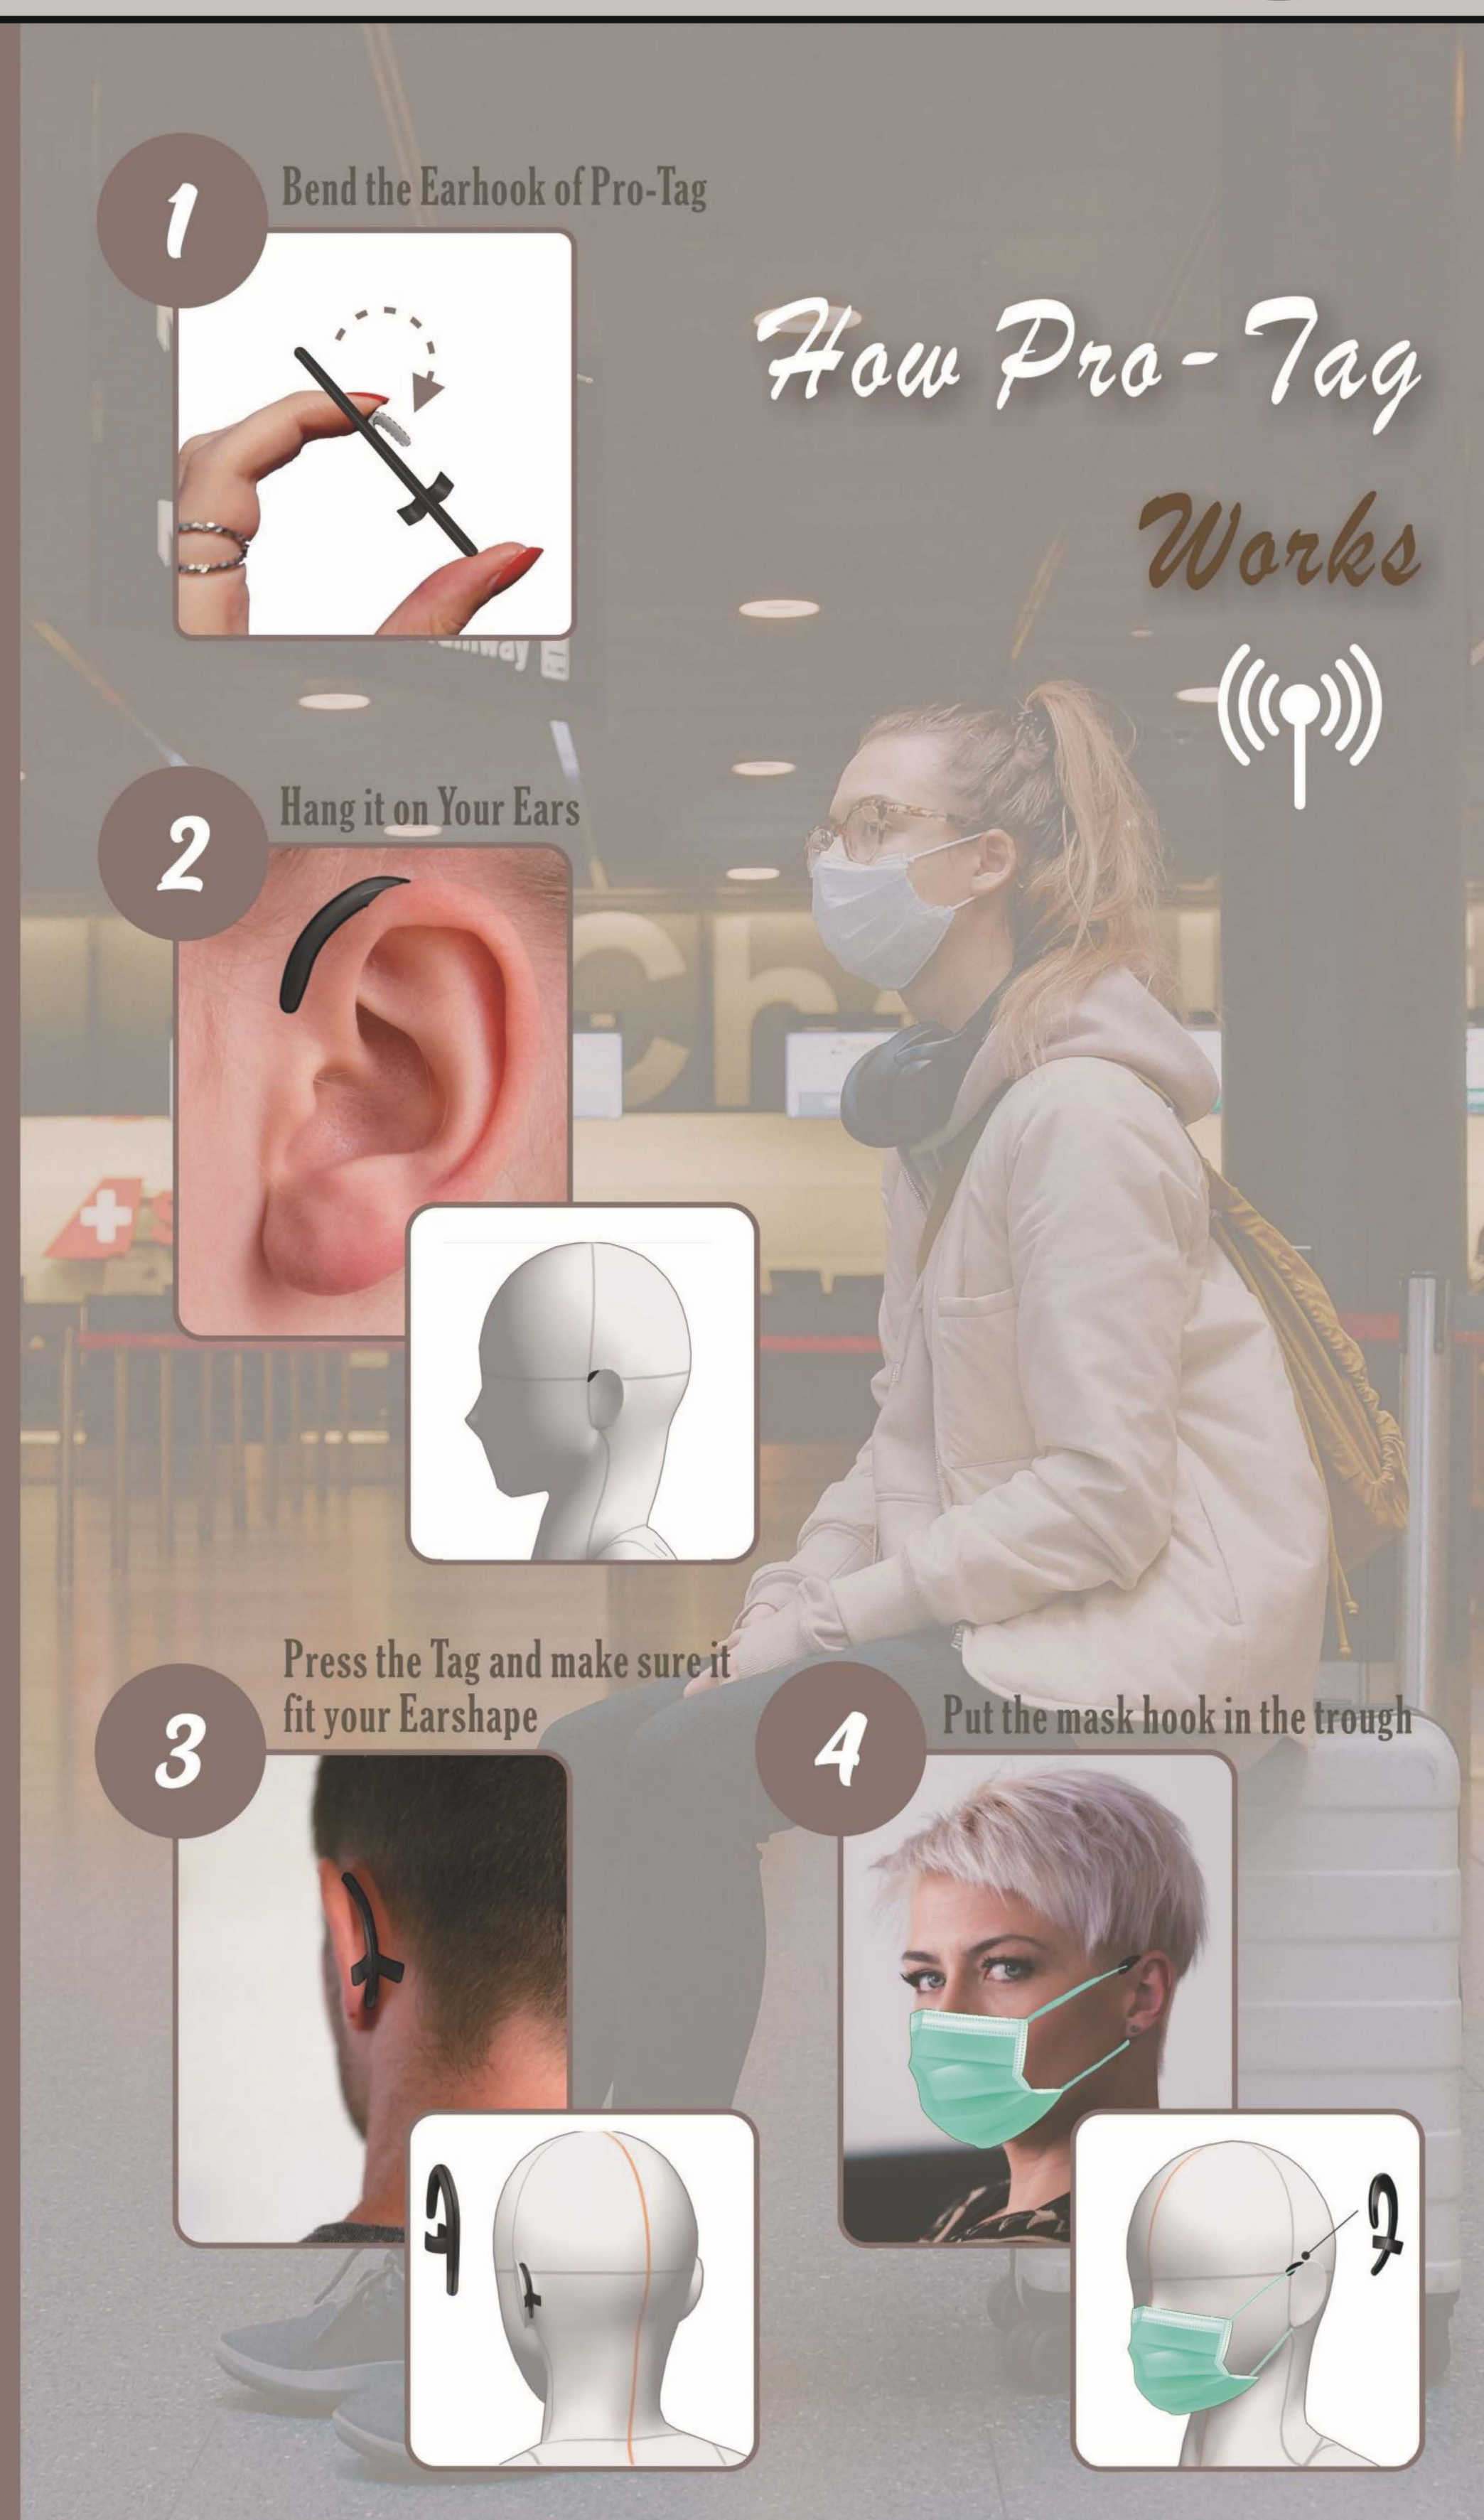

Our Story Begins here...

The coronavirus outbreak has created global anxiety, fueling fear and hate all over the world since the first cases were reported in Wuhan. We have a Dream, we have a dream to make different!

Pro-Tag is a wearable Smart-EarHook designed to rebuild trust, which we believe that trust is the foundation for a healthy society. By wearable device, bio-thermometer embedded in model of GPS, which tracks suspects with no distances under precise signal, but gathers people closer with a trustworthy household registration system.

I don't Protect you, I create a World No one Needs Protecting.
